

**Approach
(cont'd)**

The following list of non-stormwater discharges are allowable:

1. Water line flushing.
2. Landscape irrigation.
3. Diversion of stream flows or rising groundwater.
4. Infiltration of uncontaminated groundwater, as defined at 40 CFR 35.2005(20), to separate storm drains.
5. Pumping of uncontaminated groundwater.
6. Discharges from potable water sources, foundation drains, air conditioning condensate, irrigation waters, springs, water from crawl space pumps, or footing drains.
7. Lawn watering.
8. Individual noncommercial car washing on residential property; or car washing of less than two consecutive days in duration for a charity, nonprofit fund raising or similar noncommercial purpose.
9. Flows from riparian habitats and wetlands.
10. Dechlorinated swimming pool discharges.
11. Incidental street washing water from street cleaning equipment designed for cleaning paved surfaces and limiting waste discharges.
12. Street deicing for public safety.
13. Any flows that result from firefighting.
14. Any activity authorized by a valid NPDES permit.

The following non-stormwater discharges are explicitly prohibited by the Glasgow Stormwater Ordinance. The list of prohibited discharges is not all-inclusive, as any type of discharge not specifically exempted (see list of items above) is prohibited. In other words, these are only the more commonly observed violations.

- Raw sewage discharges or overflows, including sanitary sewer overflows (SSOs).
- Discharges of wash water from the hosing or cleaning of gasoline stations, auto repair garages, or other types of automotive service facilities.
- Discharges resulting from the cleaning, repair, or maintenance of any type of equipment, machinery, or facility (includes motor vehicles, cement-related construction equipment, portable toilet servicing, etc.)
- Discharges of wash water from mobile operations such as steam cleaning, power washing, pressure washing, carpet cleaning, and mobile carwash facilities.
- Discharges of wash water from the cleaning or hosing of impervious surfaces in industrial and commercial areas including parking lots, streets, sidewalks, driveways, patios, plazas, work yards, and outdoor eating or drinking areas.
- Discharges of runoff from material storage areas containing chemicals, fuels, grease, oil or hazardous materials.
- Discharges of pool or fountain water containing chlorine, biocides or other chemicals, and also discharges of pool or fountain filter backwash water.
- Discharges of water containing sediment or construction-related wastes.
- Discharges of food-related wastes such as grease, oil, fish processing water, kitchen mat wash water, trash bin wash water, pouring liquids into dumpsters, etc. This includes disposing unwanted food or liquid into ditches, creeks or streams.
